Profile

I am currently pursuing my degree in Artificial Intelligence And Machine Learning and am passionate to learn by working close with the industry and seeking an opportunity for the same.

Extracurricular activities

Food Content Creation
Photography

Project

Python Computer Vision Project

The name of the project is "Helmet and License Plate Detection System". We as a group designed an automated system to capture images of the license plate if helmet is not detected on the driver. It is built using Python libraries.

I hereby declare that the details and information given above are complete and true to the best of my knowledge.
