WORK SAMPLES

Birthday Twin🔗
This is purely design(Front-end), It was developed it while I was learning Frontend development.
The project is based on **Bootstrap** and **Vide.js** is used for video integration and **CSS animations.**

Gandhian Values- Flipbook🔗
I innovated the idea of 3d rotation in CSS and gave it real-life turning effects with the help of **cubic-bezier** property.
It also uses **Howler.js** for Audio control.
